PROFESSIONAL SUMMARY

Results-driven **Frontend Developer** with experience building **scalable, high-performance web applications** using **React.js, Next.js, and TypeScript**. Strong expertise in **REST API integration, Redux Toolkit state management, and performance optimization**. Passionate about writing **clean architecture, reusable components, and fully responsive UI** that deliver seamless user experiences.

SKILLS

Core : HTML5, CSS3, JavaScript (ES6), TypeScript, Tailwind CSS, Bootstrap, React Js, Next Js, Redux Toolkit

Familiar : Node Js, Express Js, MongoDB, REST APIs, JWT, GSAP

Tools : Git, GitHub, Netlify, Dokploy, VS Code, Figma, Claude Code

EXPERIENCE

Frontend Developer March 2024 – June 2026
Potential Inc. Remote | South Korea

- Integrated **RESTful APIs** using Axios and managed global state with **Redux Toolkit** ensuring consistent data flow.
- Implemented advanced **form validation** using React Hook Form to improve data integrity and user experience.
- Implemented **mobile-first web interfaces** integrated into a **WebView-based mobile application**.
- Designed **scalable folder architecture** and reusable UI components for long-term maintainability.

PROJECTS

Ivory | Dental Prosthetics Management Platform Live Demo

- Built a **scalable dashboard system** with authentication and dynamic data rendering.
- Integrated **REST APIs** and ensured fully responsive UI across devices.

Technologies: React 19, React Router 7, TypeScript, Redux Toolkit, Tailwind CSS

Find Hero Section Live Demo

- Designed and developed a **scroll-driven real estate hero section** featuring immersive animations and modern interactive elements.
- Integrated **GSAP** and **Lenis** to deliver smooth scrolling and fluid animation transitions.
- Built a **responsive, visually engaging interface** using React 19 and Tailwind CSS, focusing on visual storytelling and user experience.

Technologies: React 19, GSAP, Lenis, Tailwind CSS 4, Vite

PacePilot | AI Fitness Platform Live Demo

- Built high-performance **Next.js SSR application** optimized for SEO.
- Implemented **multi-language system** using i18next.
- Created smooth animations using **Framer Motion**.
- Created visually engaging **parallax scrolling effects** for enhanced UI experience.

Technologies: Next.js, TypeScript, i18next, Framer Motion

EDUCATION

Bachelor of Computer Science and Engineering 2018 – 2022
European University of Bangladesh Dhaka, Bangladesh
